About the Author

I have been helping children and their parents for over 33 years as a licensed speech-language pathologist. I have worked in many settings with many different parents and children. I want to pass on some of the tips and tricks that I have learned along the way.

More information on speech and language therapy and all of my programs can be found on my website: Speech-TherapyAtHome.com

I would love to hear from you if you have any questions or comments. I can be reached at SLP@Speech-TherapyAtHome.com

Garth Schindel, SLPatHome

Disclaimer

While I am a certified speech-language pathologist and all the ideas in this program are ones that I use with the children and parents who come to see me, this program does not replace an assessment or treatment with a speech-language pathologist or any other professional.

Introduction

I consider CVC words to be one of the primary building blocks of speech. Children need to master the movements of every possible sound combination and learn to close the beginnings and ends of words. CVCs provide the structured practice that builds these skills.

The CVC Comprehensive Resource provides you with 1856 CVC words. Almost every reasonable English CVC word is included. The only words I purposefully left out are those that are universally offensive. In addition to all the very common functional words, I have added less known words, slang, shortened words, some words from other languages and a few word simplifications. This variety provides you will all of the CVC practice resources you will ever need. The words are sorted by the sounds both at the start and the end of the word and by the different vowels.

This program is intended for speech-language therapists and those already familiar with working on sounds and communication.

To make the practice words more powerful I have added my sound cue images below each sound in every word.

Sound Cues provide children with the information they need to fully understand the sounds that make up words. I've added my Ultimate Sound Cues to each practice word to

make the Complexity Approach even more powerful. Sound Cues help children understand what sounds are in each word and provides the support needed for them to make each sound correctly.

My Ultimate Sound Cues are included as a free addition to this program. More information on Sound Cues can be found on my website.

Format. The program is provided in both PDF and as a Word document. The Word document gives you the flexibility to alter and add to the practice images.

The PDF has a full colour and printer friendly back and white version.

I hope you find this program useful. Please let me know if you have any questions.

You can email me at SLP@Speech-TherapyatHome.com

Ultimate Sound Cues

Sound Cues help children to say sounds correctly and to fully understand the sounds that make up each word. Every sound in English is represented by its own Sound Cue. English is confusing. Sound Cues help.

There are 3 parts to each Sound Cue:

- Picture Symbol
- Label
- Hand Gesture

Picture Symbols are unique images that represent each sound. They make it easier for children to know what sounds are in each word and what sound they are expected to say. Each practice word is accompanied by picture symbols for each sound in the word.

Labels. Each sound cue has its own label. Labels help younger children to know what sound you are talking about.

Hand Gestures. Each sound cues has a unique hand movement. Gestures, especially ones that mimic how the sound is made in the mouth, are powerful prompts to help children make sounds correctly. The gestures help children to know what their tongue and lips should be doing to make the sound.

There are two Sound Cues for R. The Race Car is for R that is usually at the start of words. The Angry Bird represents the R in Vowel R's and in R blends. "Race" and "Angry Bird" Rs also have two different hand gestures. One for the bunched R and one for the tongue tip R. Use the ones that work best for your child.

The Sound Cues are first presented in a small format that shows the Picture Symbol and the Labels. I often cut apart these Picture Symbols and help children to find the sounds that make up each word. They can then add or take away sounds to change the word. Multisensory learning is always best. Larger formats are available on my website.

Next, the Sound Cues are in a grid showing the Picture Symbol on one side and the Label, Hand Gesture on the other side. I like to print these out on either card stock paper or laminate them. I use them as visual prompts for the different sounds. If this is too much information for your child to look at, try folding the cards in half so the label and gesture are on the back.

B as in "Boy"

G as in "Go"

F as in "Fun"

J as in "Jam"

N as in "No"

IR as in "Bird"

W as in "We"

Sh as in "Shoe"

Th as in "There"

Short E as in "Pet"

Short U as in "Up"

Long E as in "Eat"

Long U "Oops"

Ew as in "Few"

P as in "Pop"

T as in "Top"

V as in "Van"

L as in Laugh

Qw as in "Queen"

S as in "See"

Y as in "Yes"

Zh as in "Treasure"

Ng as in "Ing"

Short I as in "It"

u as in "Book"

Long I as in "Pie"

Oi as in "Oil"

C/K as in "Can"

D as in "Drum"

H as in "Happy"

M as in "Mom"

R as in "Run"

Z as in "Zoo"

Ch as in "Chip"

Th as in "Think"

Short A as in "Cat"

Short O as in "Off"

Long A as in "Ape"

Long O as in "Toe"

Ow as in "Cow"

Bounce

B as in "Boy"

Hand facing out, fingers together. As you make the B sound, pop open your fingers. Other index finger shows that voice is on, if needed.

Pop

P as in "Puppy"

Start with your hand facing out and all of your fingers together. As you make the P sound pop open your fingers.

Cough

C/K as in "Can" or "Key"

Index finger horizontally across your throat. Move finger gently up and back. Then move it quickly away as the sound "explodes" out.

Gargle

G as in “Go”

Same as K / C but use both index and middle fingers to show that voice is on.

Tip Toe

T as in “Toy”

Place the tip of your index finger on the center of your upper lip and tap lightly.

Drum

D as in “Dog”

Tip of index finger on the center of your upper lip and tap lightly. If needed, touch your other index finger to your throat to show that voice is On.

Funny Bunny

F as in “Fun”

Place the tip of your index finger at the mid-point just below your bottom lip, press gently and hold as you make the sound.

Vacuum

V as in “Van”

Same gesture as F but if needed, touch your other finger to your throat to show that voice is On.

HaHa

H as in “Happy”

Place your open palm a few inches in front and down a bit from your mouth. Move hand away as you make the sound.

Jump
J as in “Jam”

Same as Ch with your other index finger on your throat to show that voice is On – if needed.

LaLa
L as in “Love”

Make an L shape with your index finger and thumb. Touch your thumb just above your upper lip under your nose. Move hand out as you make sound.

Hum
M as in “Mom”

Place your index finger horizontally under your bottom lip. If needed, place your other index finger on your throat to show that voice is On.

Nose

N as in "No"

Touch the side of your nose with your index finger. If needed, place your other index finger on your throat to show that your voice is On.

Queen

Qw as in "Quick"

With one hand do the C/K gesture (index finger across your throat). Other hand does the W gesture (fingers on cheeks helping push lips out).

Race

R as in "Red"

For Bunched R: Palm down. Pull your fingers back so they hump up as you say the sound.

Race

R as in “Red”

For Tongue Tip R: Palm flat. Curl fingers back and up as you say the sound.

Angry Bird

R as in “Bird”

For Bunched R: Show your teeth. Palm down. Pull your fingers back so they hump up as you say the sound.

Angry Bird

R as in “Bird”

For Tongue Tip R: Show your teeth. Palm flat. Curl fingers back and up as you say the sound.

Snake

S as in “See”

Touch your index finger at center of your top lip (or under the center of your bottom lip). Slither your finger out and away as you make the sound.

Buzz

Z as in “Zip”

Touch your index & middle fingers at the center of your top or bottom lip. Move them out away in a zig zag movement as you say the sound.

Windy

W as in “Water”

Place your thumb and index finger at opposite corners of your lips. Apply slight inward pressure to round your lips as you make the sound.

Yoyo

Y as in “Yes”

Stick out your little finger and thumb. “Hang 10”. Place your hand just under your mouth. Move it out a bit as you say the sound.

Train

Ch as in “Chip”

Thumb on one cheek. Index finger on the other. Slight pressure inwards. Move forwards quickly as you make the sound to suggest an explosion of air.

Sh!

Sh as in “Shoe”

Index finger vertically just below lips. Move it out a bit as you say the sound.

Hair Dryer

Zh as in “Treasure”

Index finger vertically just below your rounded lips. If needed, touch other index finger to your throat to show that voice is On.

Quiet Tongue

Th (Voice Off) “Think”

Index finger pointing out away from your mouth. Move it out a bit as you make the sound.

Noisy Tongue

Th (Voice On) “That”

Same as Quiet Tongue but touch your other finger to your throat to show that your voice is On, if needed.

Gong
Ng as in “Sang, Sing”

Do the N gesture as you do the G gesture.

Scarry
Short A as in “Cat”

Hold your hands open at the sides of your mouth. Move them out a bit as you say the sound.

What?
Short E as in “Pet”

Hold your hand in a claw shape up by your mouth. Move it out a bit as you say the sound.

Ick

Short i as in "Pick"

Hold up your pinky up by your mouth.
Move it up a bit as you say the sound.
Use 1 or 2 hands.

Say Ahh

Short O as in "Off"

Pretend that your index finger is a
tongue depressor. Hold it pointed into
your mouth.

Up

Short U as in "Cut"

Hold up your index fingers on either
side of your mouth. Move them up a
bit as you say the sound.

Punch
ʊ as in “Book”

Place your index and middle fingers up by your mouth. Move them up slightly as you say the sound.

A or Cool
Long A as in “Ape”

Start with Short E (no sound) “What?” and then move to Long E “Eat”.

Eat
Long E as in “Sleep”

Hold your index fingers at both sides of your mouth. Move them out a bit to stretch your smile.

Eye

Long I as in “Pie”

Start with Short A “Scarry” (no sound – just to get mouth ready) and move to Long E “Eat”.

Mr. O

Long O as in “Toe”

Hands in an O shape by your mouth. Move them out a bit as you make the sound.

Monkey Lips

Long U as in “Uops”

Use your index fingers and thumbs to show “rounded lips”. Fingers and thumbs don’t touch your lips.

Oink
Oi as in "Oil"

Start with Long O "Mr. O" and move to Long I "Eye".

Ouch
Ow as in "Ow"

Start with Short A "Scarry" and move to Long U "Monkey".

Stinky
Ew as in "Ew"

Start with Long E "Eat" and move to Long U "Monkey" gesture.

How the Words are Organized

- Words are sorted by their first and then by their last consonant sounds. Each word is presented twice.
- Each set of words are also divided by their vowel sound. I feel this is important as practicing the different sounds with different vowels ensures that all the effects of coarticulation are covered.
- The Table of Contents lists only each set of words for each consonant – not by each vowel sound. This is to keep the Table of Contents a reasonable size
- The order of the vowels in each set follows the same order as the vowels in the Sound Cues.
- The words within each set of Consonant/Vowel groupings are not in any specific order with the exception of words that have the same sound at the start and end. These words are first in each set.

The Sound Cues are underneath all of the practice words. I used General American Pronunciation for each word. If you pronounce the words differently, either ignore the sound cues or change them to what works for you.
